Home care services pricing and fees

Transition to the new Support at Home program

The Australian Government introduced the new Support at Home program from 1 November 2025.

This program replaced the current Home Care Package program and introduced changes to how services are delivered and funded.

As part of this transition, we have moved to the new Support at Home pricing, outlined in this guide, to align with the updated government framework and ensure continued quality care for all our clients. Our aim is to make sure you always have access to quality care at a fair and transparent price, delivered by people you can trust.

What has changed under Support at Home?

From 1 November 2025, the Government's new Support at Home program has made some significant changes to how your care is funded and managed.

Here is what you can expect:

- ✓ **No more Package Management fees**
These fees are being removed altogether, which means more of your funding goes directly toward your care and support.
- ✓ **Care Management fees are capped at 10%**
Support at Home clients receiving ongoing services will have 10% of their quarterly budget deducted for care management. This funding will be allocated to providers and pooled with the care management funding from all other participants within a service area.
- ✓ **Hourly service prices will include administration costs**
The hourly rate for your care and support services will now include basic administration costs, making pricing simpler and easier to understand.

What this means for you:

You will have more choice, more clarity, and more control over how your care funding is used, with the peace of mind that your money goes where it matters most: **your care**.

Understanding how your care hours have changed

For many people, the Support at Home program will mean more hours of direct care and support, tailored to individual needs.

Under Support at Home, the hourly rate for your care services will now include some of the administrative costs that were previously covered separately under *Package Management* and *Care Management* in the Home Care Package program.

As a result, the hourly rate will increase slightly to reflect these changes.

The important difference is that you will only pay for the care you receive, and you will now have up to 90% of your total budget available to spend directly on your care hours.

This new approach ensures more flexibility, transparency, and value, giving you greater control over how your care is delivered.

Co-contributions under Support at Home

Client contributions are the portion of the cost of services that you are expected to pay, based on your financial capacity. Contributions are set as a percentage of the unit price for each service type and vary depending on your income and assets.

Clinical care services are fully funded by the government, while independence and everyday living services attract moderate to higher contributions, respectively.

The aim is to ensure a fair and sustainable system, where those who can afford to contribute more do so, while protections such as a lifetime cap and financial hardship provisions are in place to support those in need.

Participant Type	Clinical Care	Independence Services	Everyday Living
Full pensioner	0%	5%	17.5%
Part pensioner/ CSHC holder	0%	5 – 50%	17.5 – 80%
Self-funded retiree (No CSHC)	0%	50%	80%

Care Management and Clinical Care Management

At Mercy Health, we are here to support you every step of the way.

Each month, your care partner will provide at least one **care management activity**.

Care Management focuses on general planning, service coordination, and regular check-ins to ensure your supports continue to meet your needs.

Clinical Care Management adds professional oversight from qualified health professionals for those with more complex health or clinical requirements, ensuring your care remains responsive and effective over time.

Additional services – More care when you need it

Sometimes, you may want or need a little extra help beyond what is included in your government funding.

That is why we offer a range of additional services you can **choose to pay for yourself** — no government assessment required.

You decide what services you would like, when you would like them, and for how long.

It is flexible, transparent, and completely **your choice**.

Other services under Support at Home

1. Assistive Technology and Home Modifications

Service	Description
Assistive Technology and Home Modifications	Through the Assistive Technology and Home Modification (AT-HM) Scheme, you can access tailored equipment and home changes that support your wellbeing and daily life. This may include mobility aids, safety modifications, and devices that make living easier. Fees apply to cover setup and safe use: Coordination fee up to 15% (max \$1,500) and administration fee up to 10% (max \$500). Prices vary by need, and we will confirm all details before proceeding, so there are no surprises.

2. Restorative Care Pathway

Service	Description
Restorative Care	The Restorative Care Pathway helps you regain or maintain independence through short-term, goal-focused support. It includes early intervention, allied health, and clinical care tailored to your personal goals. If eligible, you will receive a custom care plan designed to improve your mobility, manage your health, and boost your confidence at home. This program is funded separately from your Support at Home budget, offering extra help when you need it most.
